

# LUDWIG Studio BERLIN

**Maximum scope with  
perfect infrastructure  
for your visions.**

With almost 1000 m<sup>2</sup>, **Ludwig Studio Berlin** offers the ideal space for your project. It has 11 meters of room height, a large covered vestibule and a Truss system with pre-installed green screen (or optionally black Molton). You are also welcome to use our terrace next to the Teltowkanal for breaks.

## STUDIO EQUIPMENT

The **Ludwig Studio Berlin** is located between our rental for light and stage, as well as the camera rental. Therefore lighting, stage and camera equipment are only one door away. No more waiting for the one equipment piece which spontaneously became necessary. Our know-how and equipment are always next door. All technology is assembled, tested and deployed in-house. We would be happy to make you an individual offer, whether for your commercials, video clips, TV multiples or film projects of any kind.
